THE WATER QUESTION.

Some Hints by Mr. John Woods.

TO THE EDITOR OF THE APPEAL:

The water supply is greatly diminishing and some of our rivers have fallen 75 per cent. Millions of acres that contributed to the storage of water have been renovated, and the mountains are left bare.

A tree conducts the rain to the roots, and the roots conduct the water into the ground and the branches shade and retain the snow.

This beautiful and wonderful storehouse that supplied the Carson and Truckee rivers is all but destroyed.

Some of the springs are drying up and others are yearly growing less. Figuratively, we have no more Truckee and Carson rivers, but for a little while in Spring when the sun flushes the snow from the bare mountains, and when water is wanted for irrigation, the rivers are dry. We had better look these facts squarely in the face and meet the difficulties like men.

We should willingly submit to a State tax, that will bring not less than \$50,000 per annum, and as much more as can be got out of unnecessary State expenses. This amount yearly applied with care and economy to the storage of water would keep up land values and re-establish confidence and make the most generous people on the face of this earth cheerful once more.

Gentlemen, law-makers, the entire people have been talking on this subject for the past year and expect something at your hands.

This good work could be finally applied to every county in the State, but at present, if something is not done, in regard to the water supply from this Western range, great losses will be the consequence, and we will become dry as Palestine.

Twenty-four years ago, a gentleman from California, said:

"You will soon have to store water, and there is a place called Trout Lake at the head of Carson Valley, that would hold a good supply with a small outlay."

The beneficial results of such an undertaking would reach miles below Dayton. A little money spent at this end of Washoe county would be very remunerative.

Last year Washoe Lake was two feet below its usual depth. A loss of twice the surface of Washoe Lake to the ranchmen.

By storing water in Little Valley, Washoe Lake could be brought to its usual fullness and the benefits of such an undertaking would reach Huachuca.

A dam in Little Valley can be made for a few thousand dollars 2 miles long, 1/2 mile wide, and from 10 to 20 feet deep, if a State tax that would raise \$15,000 per annum were levied.

Counties not directly benefited could not object to so small a tax. Capital and labor do not conflict. The railroad, the mine owners, the mill owners, and every working-man in the State will be benefited. Plows, wagons, fencing materials, lumber and all appliances for a hundred new farms along the foot hills from the head of Carson Valley away beyond Reno, and this will soon take place if the State will give us a good lively example.

Each ranchman will make his own dam, and retain for his one-fourth section, sufficient water; and as all the money will go through the hands of the working man he would not miss 25c. per month, and every State officer, out of his good wages, should contribute.

There are hundreds of men like myself that do not pay much State tax that would pay a self imposed tax of \$1.00 per month for a few years.

It is no use to obstruct this storage of water scheme. It will have to be done, or half of us will have to leave the State. What money is invested in the storage of water is better than compound interest and it will finally benefit every man, woman and child in Nevada.

—The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided. It has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For Sale by G. C. Thaxter.

The Great Conflict.

This will be our theme at the Union Temperance Meeting to be held in the M. E. Church next Sunday evening, Feb. 10th.

We do not propose to make mere assertions, or if assertions are made we will endeavor to back them up by facts and arguments.

We would be glad to see all our citizens who are not worshipping elsewhere, and, as our Legislators are from all parts of the State, and are supposed to have the interests of the people at heart, we are especially anxious that they give us a hearing.

J. A. Bready, Pastor.

M. E. Church.

A Pleasant Resort.

Members and Attaches of the Legislature and the other Winter sojourners at the Capitol, can find no pleasanter place of resort for reading the latest papers and magazines and selecting popular books than at Cagwin and Noteware's corner store—diagonally opposite the B. & E. Bank on Carson street. Here can always be found all sorts of plain and fancy stationery and general office supplies; besides an endless variety of novelties.

Jewelry Display.

There is a glittering display of jewelry, diamonds and ladies' watches in the show window of the Rinkel building. The designs are of the latest, and will be sold during holidays, at prices which can not be duplicated in the State.

The assortment embraces all kinds of the most fashionable jewelry and tableware. Call and inspect goods and prices. *d15H CHATELAIN & GOLDEN.
